Hart thinks he can explain his doings satisfactorily.

HARVEY JETT, of Bracken County, stole his best girl, Miss Kate Orme, from the home of her father, Silas Orme, in Robertson County the other night. In order to elude her parents, the runaway couple kept in hiding at the home of a mutual friend the next day and then on the succeeding night made their way to Aberdeen, where 'Squire Beasley tied the nuptial knot for them. The Mt. Olivet Advance says: "This escapade calls to mind a similar one that took place some twenty years ago, in which Mr. and Mrs. Orme, father and mother of the present happy bride, were the principal actors. Mrs. Orme was then a Miss Mitchell, young and pretty, and Mr. Orme, from an upper window, stole his bride away one Saturday night and at the same old Aberdeen they were united for life. Thus does history repeat itself."

A STILL HUNT.

That's What the Republicans Are Up to in the Fight Against Longmoor.

The Democrats of Mason Must Turn Out and Poll a Full Vote for All the Nominees.

The Republicans are up to their old tactics.

The Louisville Times says: "For some time past nothing has been heard of the Republican State Central Committee, and it has appeared to outsiders as if Tinsley, after being nominated, had been deserted. No speakers have been sent out over the State to orate for Tinsley. No headquarters have been opened with flourish of trumpets, and the Republican leaders have not been having themselves interviewed lately on the alleged Democratic disaffection. This has caused many persons, both Democrats and Republicans, to believe that no fight was to be made, and that the nomination had been made as a matter of form.

"Now, this is just the impression the Republican managers wished to convey. The scheme they have been attempting to work is not a new one, but it has been successful on many occasions. The plan is merely to work quietly, make no hurrah, thus cause the Democrats to believe a small vote was being polled, and then towards the close of the day to rally the entire Republican strength.

"Instead of making no canvass the Republican State Central Committee is making a harder fight for Tinsley than it has ever before made since the party has been in existence in Kentucky. Everything has been going in secret, and the greatest surprise is apt to be occasioned when they learn the public has tumbled to their neat scheme. Not only has Deputy Collector Riley been engrossed from morning to night, and that not in revenue matters, but five assistants to the Secretary of the Republican State Central Committee have been hard at work in this city ever since Tinsley was given the endorsement of what John D. White termed "a convention of storekeepers and gangsters." In addition to this there have been forty Republicans working earnestly but secretly throughout the State.

"These secret workers have burdened the mails with campaign matter of all kinds. There have already been sent out of Louisville half a million ballots having a blue flag at the top and below the name of Tinsley. These have been thoroughly distributed and placed in the hands of men believed to be sure Republican workers. In every instance the Republicans have been cautioned to keep quiet, and under no circumstances to rush for the polls early or congregate around the voting places. In this way the Democrats were to be deluded into the belief that the Republicans were not voting and an apathy was thus to be created. Then, late in the day, when the Democrats are home, feeling secure of Longmoor's election, the Republicans are instructed to come out quietly but en masse, to roll up the votes for the Republican nominee. "Forewarned is forearmed." Let not the Democrats delude themselves, that the Republicans are making no fight. They have centered on a few offices and will try to capture them next Monday.

We believe the Democrats of Mason are alive to their duty. When a Republican Congress is trying to saddle such iniquitous measures as the McKinley bill and the Force Election bill upon the

people of this country, it is no time for any Democrat to think of proving recreant to his party.

Let the leaders and the rallying committees see to it that a full vote is polled, and a polled for the full ticket.

Railway News.

The total receipts of the railway mail service for 1889 were \$6,026,982.11, and the total expenditures \$2,265,579.12, (including \$1,632,123.72 expended for free delivery service), giving a net revenue of \$3,761,402.99, and exhibiting an increase in the total receipts of the office over the previous year of \$596,811.25.

The railway mileage of the world at the beginning of 1890, according to the best authorities, aggregated a little over 357,000 miles, divided among the continents as follows: Europe, 133,900; America, 190,000; Asia, 17,800; Africa, 5,200; Australia, 10,500. United States has about 160,000, or nearly 45 per cent, of the grand total.

We have heard of many different kinds of stealing, but the oddest of all was that of a Bath County thief, who stole the young apple trees that had just been set out. This is vouched for by a reliable citizen of that county.

MINER'S MAXIMS

A starved cow will give starved milk;
 A "skinned" shoe will give "skinned" wear.

You can't put a cow on starvation diet and get good, rich cream out of her. You remember that the man who had discovered the way to keep a horse without feeding had a dead horse just about the time he had perfected his discovery.

You can't get out of a thing what isn't put into it.

Put good feed into a cow and you get good milk out of her—rich milk that will make cream.

Put good material into a shoe and you get good wear out of it. But a "skinned" shoe is as sure to give "skinned" wear as a starved cow is to give starved milk.

YOU don't want "skinned" shoes. How can you avoid them?
